EXPERIENCE

MoonBox, Dubai— Front-End Developer

January 2023 - October 2023

Worked with several high-profile clients and delivered several projects in collaboration with the other team members. Always exceeded the client's expectations and generated positive feedback which resulted in securing repeat business and enhanced the company's reputation as a trusted service provider in the industry.

- Worked closely with the UI/UX team in preparing the frontends for multiple different ongoing projects.

- Developed several responsive web templates including dashboards, e-commerce templates, travel website, recipe website, Food ordering app and an event planner to name a few.

- Utilized HTML, CSS, JavaScript, and React to develop user interfaces and implement features in accordance with design specifications.

- Conducted code reviews and offered constructive feedback to team members, ensuring code quality and adherence to best practices.

Codeavour, Lahore — Front-End Developer

December 2021 - December 2022

At Codeavour I was one of the key contributors to some of their key projects. I worked closely with several existing external clients. My responsibilities included development of new features, maintenance of existing features, doing code reviews, and collaborating with the product team in making sure that we build the right features etc.

- Converting Figma/ XD/ Photoshop designs to code.

- Worked on the frontend of a high traffic travel website using React to showcase popular travel destinations and itineraries.

- Designed an e-commerce platform using React to provide users with a seamless shopping experience. Integrated shopping cart functionality and product categories for easy navigation.

- Participated in code reviews.

- Worked on an internal Back-Office application used to manage clients, meetings, leads and reports.

- Getting feedback from clients and incorporating that.
